

Class Levels (Leibhéal Ranganna)

The North American Gaeltacht is striving to set class goals based on the [TEG test standards](#) (*Teastas Eorpach na Gaeilge/European Certificate in Irish*).

Each level may take hundreds of hours of study and practice to complete, so classes offered during our immersion week will only complete part of that curriculum. The content, goals, and pace of each class will be set by the teacher according to the level of the students attending.

Please take care to review both the requirements and goals of each level and feel free to change levels if needed. If you feel a need to change class levels during an event, please coordinate this with your teachers.
